

February 22, 2016
State Education Committee,

I am a resident in Roxbury, which is part of the Regional School District 12. I would first like to thank you for all of your hard work helping our Region get as far as we have with our plan to become an AGSTEM school. I am asking the State Legislature to pass the bill that is necessary to make Region 12 become an AgriScience School. This fall a referendum passed unanimously in all three of our towns to open an AGSTEM school on our existing Middle-High School campus. All three First Selectman, our Superintendent, along with the entire Board of Education and the majority of the vote in all three of our towns are whole heartedly in agreement that this is the plan for our Region.

Please vote "YES" on the bill to approve our AGSTEM Academy in Region 12.

Thank you,
